CONGRESS: PRIORITYIZE CHILDREN’S HEALTH

Children’s hospitals ask Congress to prioritize children’s health by safeguarding Medicaid and increasing funding for Children’s Hospitals Graduate Medical Education (CHGME). Medicaid is the largest single source of health insurance for kids, and CHGME supports the training of 7,000 pediatricians annually. Health care coverage and access to doctors specially trained to care for kids are important investments in children’s health and our nation’s future.

SAFEGUARD MEDICAID AND INCREASE SUPPORT FOR CHGME
