

# SPEAK NOW FOR KIDS

**Speak Now for Kids** is a national online network of parents, grandparents, teachers, nurses, doctors, hospital workers, teens – **people like you** who care about how kids' health care affects our future.

WWW.SPEAKNOWFORKIDS.ORG

## BECOME A CHAMPION for Children's Health

Behind **Speak Now for Kids** are America's children's hospitals in partnership with the Children's Hospital Association. Together we advocate on a continual basis to help policy makers at all levels of government – local, state and federal – make the right decisions for children's health.

### Here's how it works:

- Join the network and become a champion
- Learn about issues that affect kids' health
- Tell your story about why health care matters to kids
- Take action by writing your members of Congress
- Share what you're learning with others on social media

Speak Now for Kids allows you to become a champion for child health and children's hospitals.

[SpeakNowforKids.org](http://SpeakNowforKids.org) was developed to share stories about children's hospitals, patient health care and opine about what our nation's leaders should do to better meet the needs of children.

### As a Speak Now for Kids advocate, you can:

- Become a champion for child health and children's hospitals by joining Speak Now for Kids and putting yourself on a United States map of alongside other champions
- Submit video, audio, photo and written stories about children's health care needs to [SpeakNowforKids.org](http://SpeakNowforKids.org)
- Correspond with your members of Congress about important issues that affect children's hospitals and patients, like Medicaid and the Children's Health Insurance Program

**Sign-up TODAY at [SpeakNowforKids.org](http://SpeakNowforKids.org)**

Please contact the Speak Now for Kids team at [speaknow@childrenshospitals.org](mailto:speaknow@childrenshospitals.org) with any questions.
