Pediatric Psychiatric and Behavioral Health Library

This Product Line is targeted to clinicians working in pediatric acute care units, ICUs, ED and any other non-inpatient child psychiatry/behavioral health areas where pediatric patients with psychiatric and/or behavioral health disorders may be encountered.

**Benefits**

- Provide standardized pediatric-specific orientation program customized to the needs of non-specialized behavioral health clinicians.
- All courses will have associated CNE and most will also have associated CRCE and CME.

**Facts**

- Will include 15 online courses.
- The Behavioral Health Advisory Committee (18 members, representing 10 children’s hospitals) prioritized course topics to align with expected competencies of clinicians working with children and families.
