Pediatric Acute Care Library

These resources provide 24/7 access to the foundational clinical information and just-in-time job aids clinicians hired to the acute care setting need to understand and care for their patient population. Standardized, self-paced learning resources allow educators to focus on application to assist new hires in gaining required knowledge and skills more quickly, improving time to productivity. In addition, educators can add organization-specific information and policies to online topics, creating a personalized solution.
Pediatric Acute Care Library

Advanced Medication Calculation
Age-Specific Care for Adolescents
Age-Specific Care for Adults
Age-Specific Care for Infants
Age-Specific Care for Newborns
Age-Specific Care for Preschoolers
Age-Specific Care for School-Age Children
Age-Specific Care for Toddlers
