

CASE STUDY: PROGYNY HEALTHCARE CLIENTS

Proven outcomes across 45 healthcare clients and their members

Every day, healthcare companies work to innovate, collaborate and create a healthier future for individuals and their families.

Progyny has been partnering with leading employers in the healthcare space for eight years to provide their members with innovative fertility, family building and women's health benefits – so they too can have happy, healthy families.

Review the healthcare-specific outcomes below to see how Progyny's actively managed network of top fertility and women's health specialists, equitable benefit design, concierge member support and focus on outcomes-driven care support healthcare industry employees, while driving healthcare savings for their employers.

Healthcare industry engagement and results

- 18,000+** members supported across their journeys
- 2%** pursued fertility treatment
- 2,000+** babies born with the help of the Progyny benefit

Healthier babies and members

Driving better outcomes for healthcare industry employees, and cost-savings for our healthcare clients.

Better outcomes for members

Cost-savings for healthcare clients

Healthcare industry employees feel supported

Our members say it best – Progyny provides one-of-a-kind support.

“*My PCA did an incredible job explaining everything in a concrete and relatable manner. She took the time to look into specifics for our program, which allows us to better plan for our experience and future. her delivery and thoughtfulness meant so much, especially when it comes to something as serious as family planning.*”

–Progyny healthcare industry member

Progyny represents Progyny in-network provider clinic averages for Progyny members based on the 12-month period ended December 31, 2022. For each Progyny outcome presented, the p-value when compared to the national average is <0.0001. | 1. Calculated based on the Society for Assisted Reproductive Technology, or SART, 2020 National Summary Report, finalized in 2023. | 2. Calculated based on CDC, 2021 National Summary and Clinic Data Sets, published in 2023. | 3. Data pulled from all Progyny's healthcare clients and aggregated, program-to-date.
