

Hematology/ Oncology Suite

Children's Hospital Association

Hematology/Oncology Suite

This suite of Pediatric Learning Solutions (PLS) online courseware and curricula provides 24/7 access to the foundational knowledge clinicians working with hematology and oncology patients need to care for their patients and families.

Developed in partnership with industry and children's hospital experts, these online modules provide didactic, foundational training for pediatric clinicians working with pediatric hematology/oncology patients. In addition, educators can add organization-specific information and policies to online topics, creating a personalized solution.
