

The leading
learning solution
exclusively for
pediatric professionals

Children's Hospital Association

PICU Library

This solution provides 24/7 access to the foundational critical care information and just-in-time job aids clinicians hired to the PICU, CVICU and/or ED need to understand and care for their critically ill patients. Standardized, self-paced learning resources allow educators to focus on application to assist new hires in gaining required knowledge and skills more quickly, improving time to productivity. In addition, educators can add organization-specific information and policies to online topics, creating a personalized solution.
