

PEDIATRIC

Behavioral and Mental Health Library

Children's Hospital Association

Pediatric Behavioral and Mental Health Library

This Library promotes the competency of primary care clinicians in assessing, evaluating and providing culturally-competent, whole-person and family-oriented care to the pediatric patient who is demonstrating challenging behaviors, suicidal ideation, and/or has a suspected or diagnosed behavioral or psychiatric disorder according to current evidence-based practices. Target audience: clinicians working in pediatric acute care units, ICUs, ED and any other non-inpatient child psychiatry/behavioral health areas.
